ORGANIZED IN 1888 "FOR THE INCREASE AND DIFFUSION OF GEOGRAPHIC KNOWLEDGE"

The National Geographic Society is chartered in Washington, D. C., in accordance with the laws of the United States, as a nonprofit scientific and educational organization for increasing and diffusing geographic knowledge and promoting research and exploration.

The Society has conducted more than 200 expeditions and scientific projects. It disseminates knowledge to millions through its world-famous National Geographic, its 21 million color maps a year, its books, monographs, bulletins for schools, its information service for press, radio, and television.

Articles and photographs of travel, natural history, and expeditions to far places are desired. For material used, generous remuneration is made.
